Transporting Waste Pay at a metered rate

Bulky and occasional domestic waste must be booked for collection by a waste management service, but if they service is unavailable, it can be brought to the Izumisano City Tajiri Sanitation Association's Incineration Plant 2 (waste incineration plant: 290-1, Kashoji, Tajiri-cho), if it meets the Association's standards and restrictions (detailed list can be found on the Association's website). Using this service would require a "Waste Disposal Certificate" issued by the city's Environmental Sanitation Department (8:45-17:15, weekdays). If transporting waste in a vehicle weighing over 2-tons, a registration number must be applied for in issuing the "Waste Disposal Certificate".

A minimum disposal fee of 500 yen is required for any waste weighing less than 55 kg and an additional fee of 100 yen is required for every 10-kg increase.

Fureai Collection

This is a service aimed at supporting those who cannot take out their waste on their own or require help in doing so. At a request, domestic waste can be collected from the front door and the safety of the elderly living on her/his own can be verified. Call the city's Environmental Sanitation Department for details.

Handling of Town Activity Promotion Bags

The bags can be used just as the bags provided by the city to dispose waste in designated waste disposal areas for collection. The same applies to waste that is tied in a bundle and the bag can be used together with the bag provided by the city. *Cannot be used for waste transported to the incineration plant.
