

## 第三中学校だより

泉佐野市立第三中学校 校長 渋谷 和夫 2025.4.25

【Thank you very much】

My name is Kazuo Shibumura and I have been appointed as the principal. At Daisan Junior High School, I worked as a lecturer (physical education as a subject) for about 4 years about 19 years ago, and for 3 years as vice principal from 2020. Thank you very much for your support. Daisan Junior High School is a school with a rich history and tradition, celebrating its 77th year since its founding. Currently, it is a medium-sized school with a total of 389 students, and the number of students is decreasing year by year. Society has changed dramatically, and what kind of learning do children need ``now"? The question arises.

I believe that rather than the ability to memorize knowledge quickly and accurately, children are required to have the ability to ask questions on their own and continue to seek answers while collaborating with others. I hope to foster the ability to act independently while valuing the curiosity and inquisitive spirit within children.

We will continue to create a third junior high school with the cooperation of the teaching staff and families who are close to the children, so we ask for your continued support and cooperation.

At the entrance ceremony on April 7th, we welcomed 107 new students. This year as well, all of our faculty and staff will work together to foster the development of our children, with the goal of creating a school where children with a variety of individualities can live vibrant lives, where we recognize differences and support each other. Thank you for your continued support.
