## How to use the Safety Confirmation Towel

The first Sunday in November is Izumisano City Citizens' Disaster Prevention Day.

On the day of the drill, put out towels at the entrance hall or other locations!

When disaster strikes, use this towel to let people know you and your family are safe.

Hang the towel on your front door or mailbox, so it is visible for people outside.

This way the towel becomes a sign to judge from the outside whether you are safe.

Please keep it in your emergency bag or another safe place.
